#### A Little Bit About Us

The Cellar Bistro came to be out of a desire to provide people with a place to go for fresh, preservative free foods and beverages. Whenever possible, we use organic products. We purchase from family owned businesses that care about their customers as well as from whom they buy. We buy from businesses within our communities, or who are an integral part of their community and try to have a positive impact on the environment. By doing this, we feel we are not just giving you food to eat, but we're generating business for others who are doing business like us. If enough people choose to operate in this manner, our world will continue being a better place to live. So spread the word. Share your experience with others and enjoy great food, great wine and great people.
